This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

The following catalogue contains the titles of the principal books purchased for and presented to the Library during the year 1888. It consists of four classified "Quarterly Bulletins", a subject index, and an index of authors, anonymous works and collections.

As in the volume for 1887, the classification is simply for convenience, not at all pretending to scientific or bibliographical perfection. As a key to the most recent additions to the Library, it will be found serviceable. Friends of the Public Library will confer a favor, if they will kindly communicate to the Librarian the correction of any error they may discover in the BULLETINS, or the authorship of any works treated as anonymous, or the name of any person entered only under initials or under a pseudonym.

ALBERT W. WHELPLEY,
Librarian.

The indication of the size of books in our catalogues is determined by measurement of their height in centimetres as follows:

Books	less than			10 centimetres,	are	marked	48°
"	10cm	and	less	than 12cm	"		32°
"	12cm	"	"	" 14cm	"		24°
"	14cm	"	"	" 16cm	"		18°
"	16cm	"	"	" 18cm	"		16°
"	18cm	"	"	" 22cm	"		12°
"	22cm	"	"	" 26cm	"		8°
"	26cm	"	"	" 30cm	"		4°
"	30cm	"	"	" 40cm	"		f°
"	40cm	"	"	" 50cm	"		f4
"	50cm	"	"	" 60cm	"		f5

Books having a width of four-fifths their full height have *sq.* (*square*) prefixed to the symbol; where, however, the width is greater than the height, this is indicated by prefixing *obl.* (*oblong.*)

DIRECTIONS.

In order to find whether any desired work is in this catalogue, if the author is known, consult the Index of Authors, beginning at page 121.

In order to find what works on any given subject are in this catalogue, consult the Index of Subjects on the opposite page, and the pages of the catalogue there indicated under the subject consulted.

In order to find whether a work published anonymously is in this catalogue, consult the Index of Titles, beginning at page 136. For Proceedings and Transactions of learned societies consult the same index.

Books are entered under the *real* name of the author, when that is known; under the *pseudonym* or assumed name, when it is not; and where only the initials of an author are known, the last initial is put first. Compound surnames are entered under the first part of the name. The names in parentheses printed in *italics* and not preceded by the word "*formerly*", are the pseudonyms of the authors whose real name they follow.

The numbers at the end of each title are the "call numbers" for the book; those to which an asterisk (*) is prefixed, can not be taken from the Library. All books should be called for by their numbers.

Russel, William Augustus. A new and authentic history of England, from the most remote period of genuine historical evidence, to the present important crisis: containing an interesting chronicle of the monarchs; an accurate chronological account of remarkable events, an entertaining recital of singular occurrences; and an impartial biographical narrative of the lives of eminent persons: including, in the whole, all that is worthy of observation in the annals of the British empire. In which the civil, ecclesiastical, military, naval, commercial, and literary transactions of these realms are circumstantially and candidly related; the constitution and political establishments are distinctly traced; and an estimate of the customs and manners of the times, with the state of the nation, are given for the space of near two thousand years. Embellished and illus. with upwards of 100 curious copper plates, engr. (from the drawings of the celebrated Mr. Wale, and other eminent artists) by Grignion, Walker, Taylor, White, Debroche, and other capital masters, representing the most remarkable public and private transactions that occur in the course of the history; with whole length figures of all the monarchs, from William the Conqueror, to the present time.
